

July 1, 2014

Meetings Coming up in the month of July we have these club meetings:

July 1 Jim Ricker's in Colchester. Since the first Tuesday in July is July 1 it comes up pretty soon after our previous meeting at Gary's. We have not been to Jim's in quite awhile so directions may be in order. His place is just south of "Chimney Corners" which is on Route 2/7 south of Exit 17 of Interstate 89. His house is on the east side of the road and has a vertically placed Buick crankshaft holding up the mailbox. We will meet in his garage/workshop "way in back".

July 15 Bob Brunette's in Fletcher

Bear Ridge Racing Harold tells us this about the round- round racing at Bear Ridge in Bradford:

Saturday **June 28:** Midgets and regular line up with 4th of July fireworks. This comes up before our July 1 meeting so anyone who wants to go contact Harold for arrangements. Harold also says this: I think we left the Richmond commuter park and ride around 4 pm last year. The locals in Bradford wait until the last minute to show up and the road to get into the track is backed up for a couple miles. So getting there early is a good thing! Not sure if any of us would stay for fireworks. Last year we pulled out around 9:30-10 and they were still racing. Let me know what your choice is!

Harold

Saturday **July 12** same as above but no fireworks. Mid-season championship race. This can be discussed at this coming meeting should the club decide to go on this date.

Every Sat until Sept - Oct On all dates racing starts around 6 PM.

Anyone interesting in going to Bradford check with Harold 893-3966

Thursday Nights Cruise-Ins at Bay View Eats at Malletts Bay, Colchester. Music by Dennis Fox and Friends, which is an excellent four or five piece guitar group with singing accompaniment. Dinner at Bay View Eats is available or there is a snack trailer nearby as well.

Cruise to Guma's Four cars of CVSR members and spouses went over to Guma's Restaurant in West Chazy NY this past Saturday June 21. Art and Marion, Bob and Janet, Bob and Gloria and Jan and Linda drove their customs and street rods first to Art's Repair Shop in Grande Isle. Art Goodrich, the owner had his seven tractors out on display for us to look over. He started up a big John Deere Diesel which was quite impressive. We talked about tractors and street rods for awhile, had coffee and donuts and had a good old time. Next stop... we made an impromptu visit to North Hero to visit one of Art Stultz's high school buddies to show him our cars. He in turn showed us his '67 Dodge Dart that he has had for quite awhile. Then we cruised on over to Guma's arriving about 2 PM and had a nice leisurely lunch. The food was good and the price was right. Then back home which made a trip of about 120 miles. Weather was superb and the roads were very good. This is a good place to go to for a spur of the moment something to do.

The Winner! This year's winner of the CVSR Scholarship is Cody Aubin a resident of Lyndonville who recently graduated from Lyndon Institute. Cody will attend Vermont Tech in Randolph in the field of Automotive Technology.

Club Donation At the June 17 meeting the club voted to give \$100 to Church of the Rock, Vision Guatemala. This is the organization that Larry Tyler is involved with. He goes to Guatemala every fall and helps build houses and supply the poor with wheelchairs.

See you this coming
Tuesday at Jim's
